Field Descriptions (F12) indicates code lookup is available.

STARTING CODE

Enter the event code that you want access. This field allows for quick access to a specific event code.

SEL

Enter an "A" to add a new event or an "M" to modify an existing event.

EVENT

This field is where the event code for the specific event is added, modified or displayed. This is a code used by programmers when creating events to display on the EVEL (Event List) screen.

SCREEN

This field is where the screen name will display to identify what screen is updated that will create the specific event.

DESCRIPTION

This field will display the description of the event. Different parameters will display (for example &01, &02, etc.) that stand for things such as CAPS IDs, provider numbers, dates and worker IDs.

Additional Information

None.
